Enyeart Astro Imaging

Thanks to a very generous gift of telescopes, accessories, and imaging cameras from the personal collection of Mr. Stewart Enyeart of Granger, IN, the Astronomy program at Camp Eberhart offers astrophotography and digital imaging. The gift from the Enyeart family includes an assortment of imaging cameras, high-quality telescopes, several of which are computer-driven "go-to" scopes, many high-quality eyepieces, as well as a Hydrogen-alpha solar viewing scope. Camp Eberhart expresses its deep appreciation to Mr. Stewart Enyeart for his exceptional gift, and is pleased to create the Enyeart Astro-Imaging Program to recognize his contribution.
