

Paper Plate Education

"Serving the Universe on a Paper Plate"

Paper Plate Education is the evolving, cumulative efforts of many individuals. Wayne James introduced the concept to colleagues at the Great Lakes Planetarium Association (GLPA), which has since facilitated and encouraged the open exchange of ideas, lesson plans, techniques, and applications. Primary support for this endeavor comes from DePaul University, the Office of Space Science Center for Education and Outreach, the Space Telescope Science Institute, the GLPA Executive Committee, GLPA members, and Bernhard Beck-Winchatz. All images are by Chuck Bueter, unless otherwise noted.
