Posters

LAST_UPDATED2

Chuck

([Click here to download hi-res poster](#)) Spread the word about events related to the 2012 transit of Venus. You may print these high resolution PDF documents (~32 MB) into a 24x36 inch poster (or smaller), then put your own announcement in the bottom two white banners. This window is reminiscent of the stained glass window in [St. Michael's Church](#), which honors its church member Jeremiah Horrocks. See also [Activity: Create Your Own Stained Glass Window](#) for ways to incorporate the window into an activity.

The posters below specify the dates June 5 or June 6 above the year 2012, whereas the main [2012 poster](#), above, simply has 2012.

[June 5](#) printed above 2012

[June 6](#) printed above 2012
